

Assistant COMMISSIONER  
PATENT OFFICE  
Dear Sirs:

*GASD*  
3/24/04

I have a problem and I need help:

On about June 25 or 26 you received a patent application from me Allen H. Fletchall

: entitled:

( on the flo chart ) Fletchall Limb and Brench Saw. As of this date ~~10-2-03~~ <sup>3/24/04</sup> I have not received anything about it. I think I should have heard something by now. This is beginning to follow a patern that happened back in 1995 . ( explanation) Back then I sent in an application for a new kind of a hose reel . months passed and I did not hear anything from the patent office . I called the patent office and they said they had not receive an application . I talked to Crystal Hammond , she told me to resubmit the application , which I did. After a few weeks I received word that it had been approved . I sent in the fee and got my patent. But I got cheated out of the first new design hose reel and a chance to sell it. It is my feeling they received the know how from some one in your office.

I am fearing the same patern is happening now because I have not heard from you office about my application after ~~five~~ <sup>6</sup> months of waiting I have not heard from your office about the status of my application. I need your help in answer to my question .

I am not accusing any one but I am wondering what is going on .

Sincerely

Allen H Fletchall
